

Project CY 8609

Task

1. Describe the technical facility located via

SG1A

2. Within the following ten year period determine if and when any "special events" occur:

A horizontal line with vertical end caps, spanning from 1978 to 1988.

* Note: If you do find any "special events" -- subsequent sessions will be focused on each separate "special event."

(18)

54 1/2 I keep calling "dot" as a single
 think, but there are some straight
 lines of them. Each line goes off
 straight, in a separate direction,
 and the "dots" of each line are not
 physically or "purpose"
 connected, either

I don't find any end point to each
 line, even though there is 50m to B
 "stopping" points along it.

(15)

SUMMARY:

SITO IS A SOM. - ISOLATED SPOT IN A FLAT AREA OF LAND. TO NORTH SEEMS TO BE MOUNTAINS - TO SOUTH 500MS TO ~~BO~~ CITY/ROOT OF WATER / MOUNTAINS.

SITO IS BOTH ABOVE + BELOW GROUND. MAIN BLOCK AT SITO (ABOVE GROUND) HAS RECORDS/FILE, THE PURPOSE OF WHICH SEEMS TO SIMPLY BE KEPT NEATLY.

SITE HAS "LINES" RADIATING FROM IT. THESE LINES CARRY AN AI OF LOTS OF POINTS. THE "LINES" ARE MADE UP OF UNCONNECTED "DOTS". EACH "DOT" SEEMS TO BE MADE UP OF A BASE WHICH TRAVERS ALONG THE LINE, A LONG, ROUND, POINTED "THING" RIDING AFTER THE BASE, AND A CONCEALMENT COVER. THE COVER IS BLACK + ROUGH TEXTURED (LIKE ~~THE~~ POLE OF COR). THE "LINE" SEEMS TO HAVE NO END, ESPECIALLY SINCE IT DOES HAVE STOPPING PLACES ALONG IT.

SITE ONE 1211 hrs.
